# S COLLECTION FABRICS

We use a vast array of differing upholstery coverings and colours. Providing the material is suitable for upholstery purposes, we are happy to use any material and will quote a realistic price based on the cost of the fabric and it's suitability for upholstery. If you prefer to supply the fabric then we would normally use the Class 1 price for fabric and Class 3 for leather. If significant numbers are required then we will quote a special price.

The fabric required is shown against the proves for each chair as C.O.M, but if a quantity is required we may be able to make economies in usage.

We buy our leathers as complete hides therefore orders for that do enable us to use a complete hide and are non-standard specification will be assessed and additional charges may be applicable. In these circumstances you will be advised prior to order acknowledgment.
